

URGENT VOLUNTARY RECALL: Pharmacy Level, October 10, 2024

Cinacalcet Tablets 30 mg, 60 mg and 90 mg

Accord Healthcare, Inc. (“Accord Healthcare”) is voluntarily recalling **multiple batches of Cinacalcet Tablets 30 mg, 60 mg and 90 mg, at the Pharmacy Level.**

This recall is being initiated due to the presence of a nitrosamine impurity, N-nitroso-cinacalcet, at or above the acceptable daily intake (ADI) limits established by regulatory authorities. During testing, the presence of **N-nitroso-cinacalcet** above ADI limits was detected, a type of nitrosamine impurity in certain batches of Cinacalcet Tablets. Nitrosamines are classified as probable human carcinogens based on laboratory studies and long-term exposure above the ADI may increase the risk of cancer. As patient safety is its highest priority, Accord Healthcare is taking immediate action to recall the affected product batches. To date, Accord Healthcare has not received any reports of adverse events related to the presence of a nitrosamine impurity in the medicine.

Please examine your inventory of Accord Healthcare’s Cinacalcet Tablets 30 mg, 60 mg and 90 mg for the below listed batch numbers carefully.

The product label for recalled products should have the following details, please refer to the enclosed product labels included with this recall letter.
