See enclosed product label for ease in identifying the product.

This recall has been initiated due to an out of specification (OOS) result in dissolution testing (buffer stage) of Mycophenolic Acid DR Tablets, 360 mg. OOS was initially observed in batch number 22123437. Mycophenolic Acid DR Tablets are an antimetabolite immunosuppressant indicated for prophylaxis of organ rejection in adult patients receiving kidney transplants and in pediatric patients at least 5 years of age and older who are at least 6 months' post operative procedure. Use of affected Mycophenolic Acid Delayed-Release Tablets, 360 mg (detailed in the table above) can result in a slight delay of intended pharmacologic effect. As a precautionary measure, all other live batches--totaling 29 batches—subject to single large lot coating during manufacturing will also be recalled.

Our firm began shipping this product on March 6, 2023. Immediately examine your inventory and quarantine product subject to recall for the lot numbers specified in the table above.

Please perform the following activities:

- a. Immediately examine your inventory and quarantine product subject to recall for the lot numbers specified in the table above. Please follow the directions in the attached recall stock response to return the affected product.
- b. Promptly identify your recall customer(s) who received the recall product and provide them with clear instructions to return the recall product.
- c. Promptly complete the attached recall stock response form even if you have no product to return.
- d. The completed Recall Response Form can be submitted by any of the following methods:

Fax: 817-868-5362 or E-mail: rxrecalls@inmar.com

This recall is being carried out to the RETAIL level. Your assistance is appreciated and necessary to prevent consumer harm.

Your assistance is appreciated and necessary in this voluntary recall. If you have any questions related to customer service, please contact product inquiries—available 24 hours a day, 7 days a week—at 877-272-7901.
